

POSTER PRIZE

During the XVIII Convention, 283 posters were presented. A committee of members made up from members of both the Telethon Scientific Committee and the Advisory Board present at the event chose the best posters for their scientific content and presentation, and awarded the first three with a prize of 1000 Euros each.

The three winning posters:

POSTER n. 10: “RNA-based gene therapy of Duchenne muscular dystrophy”

Martone Julie, Ballarino Monica, Briganti Francesca, Legnini Ivano, Cipriano Andrea, Bisceglie Lavinia, Shamloo Sama, Bozzoni Irene

(Sapienza University of Rome)

POSTER n. 69: “Isolated domains of aminoacyl tRNA synthetases as a novel therapeutic tool for mitochondrial tRNA mutation associated diseases”

Perli Elena, Di Micco Patrizio, Fiorillo Annarita, Montanari Arianna, Pisano Annalinda, Prezioso Carmela, Poser Elena, Genovese Ilaria, Francisci Silvia, Frontali Laura, Zeviani Massimo, Giordano Carla, Morea Veronica, Colotti Gianni, d’Amati Giulia

(Sapienza University of Rome)

POSTER n. 237 – “Melusin gene therapy: a possible approach to prevent cardiomyopathy”

Moiso Enrico, Rubinetto Cristina, Cimino James, Brancaccio Mara, Tarone Guido

(University of Turin)
